

HEALEY HAPPENINGS

Volume 19, No.9

BUSY

Here we are at one of the busiest time of the year, however it has not been the case in our household as Carol and I traded being sick first with the flu then colds. Sure hope your household has not been hit with these bugs as it has been a nasty couple of weeks. Our Club members that attended our Christmas Dinner at The Round Table had a wonderful time, gifts were exchanged, traded and in some cases traded again from within the same family in order to insure that one of the partner got to keep the gift they picked. That was a little unusual but it was learned that this was common practice with the Triumph Driver's Club. I guess different Club, different set of rules. Good fun was had by all.

The Vic Venier Enthusiast Award, presented annually to the person or couple that enthusiastically helped the Club at functions, event participation and unselfishly gave of their time was awarded this year to Ann Blonski and Mark Rogers. Congratulations to both, who, for years have been very active in the Austin-Healey Club of Manitoba.

HEALEY NEWS FROM AROUND THE WORLD

Latest news comes from Australia where two projects to replicate records set at the Bonneville Salt Flats in 1956 are taking shape. The streamliner is being built by well known restorer Steve Pike at his shop and is set to make its debut in March 2009 at Phillip Island in Australia. No date has been set for the record breaking run but you can follow all the action at the following website: www.healeysreturntobonneville.com
Photos are courtesy of Patrick Quinn from Australia.

You wouldn't buy our shitty cars.

So we'll be taking your money anyway.

The Bailout. Coming this January.

You probably thought it was smart to buy a foreign import of superior quality, with better mileage and resale value. Maybe you even thought that years of market share loss might prod us into rethinking our process and redesigning our products with better quality in mind. But you forgot one thing: We spend a shitload of money on lobbyists. So now you're out \$25 billion, plus the cost of your Subaru. Maybe next time you'll buy American like a real man. Either way, we're cool.

THE MANY USES OF WD-40 as submitted by Graeme Lowden

Well, Who Knew...? I had a neighbour who had bought a new pickup. I got up very early one Sunday morning and saw that someone had spray painted red all around the sides of this beige truck (for some unknown reason). I went over, woke him up, and told him the bad news. He was very upset and was trying to figure out what to do probably nothing until Monday morning, since nothing was open. Another neighbour came out and told him to get his WD-40 and clean it off. It removed the unwanted paint beautifully and did not harm his paint job that was on the truck. I'm impressed! WD-40 who knew? Water Displacement #40. The product began from a search for a rust preventative solvent and degreaser to protect missile parts. WD-40 was created in 1953 by three technicians at the San Diego Rocket Chemical Company. Its name comes from the project that was to find a "water displacement" compound. They were successful with the fortieth formulation, thus WD-40. The Convair Company bought it in bulk to protect their atlas missile parts. Ken East (one of the original founders) says there is nothing in WD-40 that would hurt you. When you read the "shower door" part, try it. It's the first thing that has ever cleaned that spotty shower door. If yours is plastic, it works just as well as glass. It's a miracle! Then try it on your stovetop... Voila! It's now shinier than it's ever been. You'll be amazed. Here are some of the uses:

- 1) Protects silver from tarnishing.
- 2) Removes road tar and grime from cars.
- 3) Cleans and lubricates guitar strings.
- 4) Gives floors that 'just-waxed' sheen without making it slippery.
- 5) Keeps flies off cows.
- 6) Restores and cleans chalkboards.
- 7) Removes lipstick stains.
- 8) Loosens stubborn zippers.
- 9) Untangles jewellery chains.
- 10) Removes stains from stainless steel sinks.
- 11) Removes dirt and grime from the barbecue grill.
- 12) Keeps ceramic/terra cotta garden pots from oxidizing.
- 13) Removes tomato stains from clothing.
- 14) Keeps glass shower doors free of water spots.
- 15) Camouflages scratches in ceramic and marble floors.
- 16) Keeps scissors working smoothly.
- 17) Lubricates noisy door hinges on vehicles and doors in homes
- 18) It removes black scuff marks from the kitchen floor! Use WD-40 for those nasty tar and scuff marks on flooring. It doesn't seem to harm the finish and you won't have to scrub nearly as hard to get them off. Just remember to open some windows if you have a lot of marks.
- 19) Bug guts will eat away the finish on your car if not removed quickly! Use WD-40!
- 20) Gives a children's play gym slide a shine for a super fast slide.
- 21) Lubricates gear shift and mower deck lever for ease of handling on riding mowers.

- 22) Rids kids rocking chairs and swings of squeaky noises.
- 23) Lubricates tracks in sticking home windows and makes them easier to open.
- 24) Spraying an umbrella stem makes it easier to open and close.
- 25) Restores and cleans padded leather dashboards in vehicles, as well as vinyl bumpers.
- 26) Restores and cleans roof racks on vehicles.
- 27) Lubricates and stops squeaks in electric fans.
- 28) Lubricates wheel sprockets on tricycles, wagons, and bicycles for easy handling.
- 29) Lubricates fan belts on washers and dryers and keeps them running smoothly.
- 30) Keeps rust from forming on saws and saw blades, and other tools.
- 31) Removes splattered grease on stove.
- 32) Keeps bathroom mirror from fogging.
- 33) Lubricates prosthetic limbs.
- 34) Keeps pigeons off the balcony (they hate the smell).
- 35) Removes all traces of duct tape.
- 36) Folks even spray it on their arms, hands, and knees to relieve arthritis pain.
- 37) Florida's favourite use is: "cleans and removes love bugs from grills and bumpers."
- 38) The favourite use in the state of New York WD-40 protects the Statue of Liberty from the elements.
- 39) WD-40 attracts fish. Spray a LITTLE on live bait or lures and you will be catching the big one in no time. Also, it's a lot cheaper than the chemical attractants that are made for just that purpose. Keep in mind though, using some chemical laced baits or lures for fishing are not allowed in some states.
- 40) Use it for fire ant bites. It takes the sting away immediately and stops the itch.
- 41) WD-40 is great for removing crayon from walls. Spray on the mark and wipe with a clean rag.
- 42) Also, if you've discovered that your teenage daughter has washed and dried a tube of lipstick with a load of laundry, saturate the lipstick spots with WD-40 and re-wash. Presto! Lipstick is gone!
- 43) If you sprayed WD-40 on the distributor cap, it would displace the moisture and allow the car to start. P. S. The basic ingredient is FISH OIL.

UPCOMING EVENTS

January 5th – AHCM monthly meeting, 7:30pm at the home of Helmut & Margret Friedrich, 137 Sweetwater Bay, Winnipeg

January 15th – Triumph Driver's Club Tech. Session on brakes, 7:00 pm at Bill Sullivan place, 226 Winchester St., Winnipeg
